## 2019 Summer Enrichment Camps

Registration begins: May 1st, 2019

Our **Summer Enrichment Camps** feature fun, play-based learning activities centered on weekly themes. Children ages 24-months to seven years of age (or those entering First Grade in September) are welcome to attend. Activities are designed so children of different ages can participate *together* but at age-appropriate learning levels. Each weekly program is lead by an experienced early childhood educator. Summer Enrichment Camps are held Tuesday, Wednesday, and Thursday from 9:00 am to 12:00 pm. Our program was designed with your summer vacations in mind! Your family can enjoy a long weekend away and your child can attend Summer Enrichment Camp mid-week while you recover from/prepare for a long weekend.

**Week 1 ~ Creative Builders** (July 9<sup>th</sup>, 10<sup>th</sup>, and 11<sup>th</sup>): Does your child love Legos? During this Summer Enrichment Camp, we will design and build our own structures using a variety of materials, including Legos, wooden blocks, and recycled materials. The sky is the limit during this fun and creative camp that allows children to hone their problem-solving and team-building skills while learning some basics of engineering.

**Week 2 ~ Superheroes** (July 16<sup>th</sup>, 17<sup>th</sup>, and 18<sup>th</sup>): Does your child have what it takes to save the world? During this Summer Enrichment Camp, children will identify a problem and create a superhero persona to battle the evil-doers. Children will participate in team-building activities and cooperative games. Literature and hands-on activities will help your little superhero learn how to take action and initiate change to make the world a better place.

**Week 3 ~ Whiz Kids!** (July 23<sup>rd</sup>, 24<sup>th</sup>, and 25<sup>th</sup>): Calling all scientists! We are making great discoveries here at Discovery Place! During this Summer Enrichment Camp, children will learn to use basic scientific tools, explore magnets, and experiment with simple chemical reactions. Children will learn how science is involved in the things we use every day.

**Week 4 ~ Symphony of the Senses** (July 30<sup>th</sup>, 31<sup>st</sup>, and August 1<sup>st</sup>): Did you know the word symphony doesn't only refer to music? During this Summer Enrichment Camp, your child will explore his or her five senses and will learn through touch, taste, smell, sound, and sight that there are many ways to create or experience a symphony. This hands-on program is a wonderful sensory-filled experience for young children.

**Week 5 ~ Featured Author** (August 14<sup>th</sup>, 15<sup>th</sup>, 16<sup>th</sup>): Join us on a reading adventure that incorporates many of our other themes! During this Summer Enrichment Camp, we'll read books by our Featured Author (we can't say who... it's a surprise). The children will enjoy music, movement, art, and cooking activities related to our Featured Author and the stories we read. Truly a memorable experience for any young book reader!

**Week 6 ~ Kindergarten Jump Start** (August 21<sup>st</sup>, 22<sup>nd</sup>, and 23<sup>rd</sup>): This camp is taught by an experienced Universal Pre-K teacher. Through games, music, movement and art your child will review upper and lower case letters, numbers, word families, site words, and write and illustrate their own stories. They will be ready to jump right into Kindergarten! **This program is for 4 and 5 year olds only, who will be entering Kindergarten in the Fall of 2019.**
